### **DETAILED ACTION**

Receipt is acknowledged of the amendment and information disclosure statement filed 03/06/3008 and 07/24/2008.

The rejection under 35 USC 112, first paragraph for written description, claim objection, and rejection under 35 USC 103(a) are withdrawn in view of applicant's remarks.

The following is a new rejection of the claims:

#### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1, 9, 10, 11, 12 and 14 are rejected under 35 U.S.C. 103(a) as being unpatentable over Guvenal et al (Human Reproduction, Vol. 16, No. 8, pp, 1732-1738, 2001).

The reference discloses the use of nimesulide ( a well known CoX-2 inhibitor) in preventing and treating surgical adhesions. The agent is administered both before and after surgery (see Abstract). While the instant application sets out the use OCS-2

inhibitors other than nimesulide, there is no reason why the ordinary practitioner would not expect similar prevention of surgical adhesions given the disclosure of Guvenal et al. The specification does not provide any superior, unexpected and or unusual properties from the COX-2 inhibitors claimed over nimulside. As such, the instant claims would have been obvious to one of ordinary skill at the time of invention given the disclosure of Guvenal et al.

### ***Conclusion***

Applicant's submission of an information disclosure statement under 37 CFR 1.97(c) with the fee set forth in 37 CFR 1.17(p) on 07/24/2008 prompted the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 609.04(b). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
